

How to make Dot Paintings

Materials: Black paper or card / cotton buds / acrylic paints / pencil (or paint pens)

METHOD:

1

Start by preparing your paints. You will need about five colours with a different cotton bud for each colour.

You can use a template to draw around if you like
See separate PDF

***OR, you can use "paint pens"**

2

Choose one colour to start with. Using a cotton bud, gently press the bud onto the paper

Keep going until you have gone all the way around this shape.

Next, choose another colour and start another line inside the first line. Take your time

3

You can add a little pattern in each corner...

You can use the corner patterns to add rows of a different direction

Or you can fill the whole page with dots!
